Senator Kremer you can now move. I might add that there aren't too many great moments up here in the chair, but when we are under Call of the House that's the time that I do particularly enjoy. All right, have you all voted? Motion is to raise the Call. Clerk will record.

PRESIDENT: Very good. The Call is raised. Read the tally

CLERK: 31 ayes, 9 nays, Mr. President on the motion to lay over.

PRESIDENT: LB 653 is laid over until Friday. The motion carries. That brings us up for General File Debate to LB 699. Senator Rasmussen's bill.

CLERK: LB 699 (read)

PRESIDENT: Very good. Senator Anderson can handle the Committee amendments.

SENATOR ANDERSON: Mr. President and members of the Legislature. The committee amendment changes the language in the bill which specifies wildlife or fish, changes that to predator. And I think the simplest way to see what the impact of the amendment is if you are following in your Bill Book, would be to turn to the committee report. At the very bottom of the report I have written what Section 1, how it would read if the Committee amendment were adopted. And the purpose of the committee amendment is brought in by Senator Rasmussen, is to make sure that in reinstating the opportunity to hunt predators from the highways or roadways of the State of Nebraska that no prohibition of fishing, such as fishing in the interstate lakes along the interstate highway is done. And so with that explanation I move for the adoption of the committee amendments.
